Objective

Full Stack Developer and AI & ML Enthusiast, skilled in building scalable APIs, working with relational databases. Adept at problem-solving, applying clean architecture, and delivering high-quality solutions.

Education

B.Sc. in Computer Science – Helwan University
Sep 2022 – Present | GPA: 3.78 (Excellent)

Internships & Practical Experience

AI Internship – Aitronix (Dec 1, 2025 – Jan 1, 2026) Gained hands-on experience in deep learning projects.

Generative AI Internship Program – Tips Hindawi (126 hours) Completed real-world projects in advanced AI concepts and generative models.

Scholarships & Leadership

.NET Scholarship – Digital Egypt Pioneers Initiative (DEPI) (Jun 2024)

Data Science Scholarship – DEPI (Jun 2025)

Head of Problem Solving – MSP Helwan

Mentor – ICPC Helwan Community

Certifications & Achievements

HCIA-AI V4.0 – Huawei ICT Academy

ECPC Finalist – ICPC/ECPC qualifications highlighting strong algorithmic thinking and problem-solving skills

Projects

Software & Web Development Projects

- Exclusive E-Commerce Store (Angular, TailwindCSS)
- Recruitment & Interview Manager (ASP.NET Core, EF, SQL Server)
- Internship Application Portal (Spring Boot Microservices,, MySQL)

AI & Machine Learning Projects

- Text-to-SQL API (Mistral-Nemo-Instruct-2407, LangChain, FastAPI) Converts natural language questions directly into SQL Server queries.
- PDF AI Assistant Upload PDFs and automatically extract text, summarize content, generate Q&A pairs, and chat with the document in real-time.
- Fire & Smoke Detection System (YOLOv12) Implemented system to detect fire and smoke in images and videos.
- BBC News Category Classifier Built a news article classifier to predict the category of BBC news articles using NLP techniques.
